Protect Camera Inventory

Cameras & Protect

Six Protect camera devices were identified among the connected UniFi clients. They are all on the Camera subnet **192.168.30.0/24 (VLAN 3)**.

Camera	IP	MAC	Connection	Uplink
G5 Flex	192.168.30.35	f4:e2:c6:0e:2b:8f	Wired	USW Pro Max 24 PoE
G5 Turret Ultra Garage	192.168.30.52	28:70:4e:12:16:5e	Wired	USW Pro Max 24 PoE
G5 Turret Ultra	192.168.30.88	28:70:4e:16:11:cf	Wired	USW Pro Max 24 PoE
G6 Instant	192.168.30.2	84:78:48:28:b9:90	Wireless	U7 Pro
G4 Doorbell Pro	192.168.30.219	f4:e2:c6:74:21:e0	Wired	USW Pro Max 24 PoE
G6 Turret	192.168.30.234	8c:ed:e1:9e:c9:18	Wired	USW Pro Max 24 PoE

The API did not return physical switch-port assignments for individual clients. The five wired cameras are therefore associated with the switch at the device level; exact ports should be confirmed from the UniFi topology/port panel if needed.
